Ninety percent of the plant material we offer for sale is grown here on our nursery. Any plant material we bring in for sale is of top quality and purchased from growers whose weather conditions are quite similar to ours. We feel this is important to you - selecting material that will be hardy for this zone.

Two of our SPECIALTIES are:

Flowering Crabapples (over 30 varieties)
Viburnums (12 varieties)

New Augusta Nursery is located at 5195 West 59th Street: or between Guion and Moller Roads, on the northwest side of Indianapolis, Indiana.

We make no guarantee on any plants other than that they are true to name, and of size claimed, and in no case will we be responsible except for the purchase price of the plant.

This list cancels all previous prices.
